(regular 2 way voice monitoring is \$39.99/month)

Equipment Upgrades

Each security system will be customized according to a client's individual needs, fears and lifestyle. Additional protection and safety devices and services can be provided to First Foundation clients.

Monitoring Services

Two Way Voice - Whatever the emergency, Voice Response allows our operators to gather timely information and provide an effective and appropriate response. With live two-way communication, we can interact with you or hear an intruder, resulting in a better response for you.

Cellular Monitoring - Allows your alarm system to communicate with the Monitoring Centre no matter what type of phone service you have, or when your phone lines have been disabled.

Liberty Live Interactive - View your system activity through a secured online website, receive text message or email notifications when system is armed, disarmed or an alarm occurs and access your alarm history.

Guard Response* - With Guard Response, uniformed guards are sent to your home when an alarm is triggered. Guards will perform a perimeter check of your home to verify the alarm. In the event of an actual alarm, they will stay on site until a key holder or the authorities arrive. Guard Response is convenient and offers added safety for you and your key holders. * Where available

Protecting what's most important.

Residential Services

Why Choose Liberty?

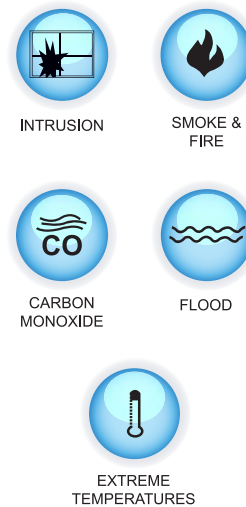

1 Latest technology

- Communication – Receive emails or text messages when your system is used.
- Smartphone applications – Arm and disarm your system from your smart phone.
- Cellular Communications - Communicate with the Monitoring Centre, no matter your type of phone service.
- Latest devices – Touch screen, two way voice enabled keypads and video monitoring and alerts.

2 Complete Life Safety

- Intrusion - Liberty Security will develop a complete solution that protects you from intruders.
- Fire - We'll dispatch a fire and rescue crew to your house within minutes – whether you are there or not.
- Carbon Monoxide - CO is colourless, odourless, poisonous gas that we'll detect and dispatch the authorities.
- Flood - Early notification can prevent or reduce the effects of flood-related damage.
- Extreme Temperatures - Monitor abnormal changes in temperature, saving you from costly repairs.

3 Commitment to customers

- Liberty lifetime no hassle warranty with every system.
- Liberty move policy – If you've been with us for a year, we'll install a new system for no charge.
- Recognized as Reliance Protectron Platinum dealer 2007 through 2010
- GE Security Dealer of the year 2008 – 2010.
